DETAILED ACTION

Restriction Requirement

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-13, 30-35, 39-41, 43 and 44, drawn to Network computer configuring; Initializing; Computer-to-computer data processing classified in Class 709, subclasses 220, 222 and 245 simultaneously.

Group II. Claims 14-29 and 45-48, drawn to Multimedia system, classified in Class 379, subclass 88.13.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In this instant case, invention Group I has separate utility such as for use in providing a telephone network to process call whereas, Group II has separate utility such as for use in providing a telephone network to process multimedia services for the call or to process hybrid call. See M.P.E.P. § 806.05(d).

3. Because these inventions are distinct for the reason given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated proper.

4. Applicant telephoned Harris on 04/16/04 regarding the restriction requirement but failed to contact him.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one

Art Unit: 2645

claim remaining in the application. **Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).**
